OFFICERS RESIGNED IN 1836, AND COMPANIES EMPLOYED
IN SEMINOLE WAR.

MARCH 2, 1837.

Read, and laid upon the table.

WAR DEPARTMENT,
March 1, 1837.

SIR: In answer to two of the resolutions of the House of Representatives of the 13th ultimo, one calling for information respecting the officers of the army who resigned during the year 1836, and the other respecting "the number of companies of the different corps of the army that have been operating during the past year against the Creeks and Seminoles," and the commissioned officers performing military duty with them, I have the honor to transmit, herewith, a report and tabular statements prepared by the Adjutant General of the army.

Very respectfully,

Your most obedient servant,

B. F. BUTLER,

Secretary of War *ad interim*.

HON. JAMES K. POLK,
Speaker of the House of Reps.

ADJUTANT GENERAL'S OFFICE,
Washington, February 28, 1837.

SIR: In obedience to your instructions, I herewith respectfully submit table A, being a statement of the number of captains and subalterns of the army whose resignations have been tendered and accepted during the year 1836. This table contains such information relative thereto as the records of this office can furnish, and is rendered in such form as is supposed best to meet the requirements of the resolution of the House of Representatives of the 13th of February.

It will be seen by this table that the resignations of 19 captains, 35 first lieutenants, 36 second lieutenants, and 13 brevet second lieutenants—in all, 103 captains and subalterns—have been tendered and accepted in 1836. It appears that 27 officers were on leave of absence, that 52 were serving with the army, 14 employed on civil duties under the orders of the chiefs of the Engineer Department and topographical engineers; and that 16 sent in their resignations after the orders were issued to join their regiments, and 5 others soon after complying with such orders. It will also be seen that 12 lieutenants had never joined their regiments, of whom, however, 8 were of the graduating class of 1836.

In further obedience to your instructions, I also, herewith, respectfully submit table B, being statements (Nos. 1 and 2) showing the number of companies of the regular army, and the number of officers on duty with them, which have been operating, during the year 1836, against the Seminole Indians in Florida, and the Creeks in Georgia and Alabama, at the several dates specified therein.

The remarks annexed to statements Nos. 1 and 2 of this table (B) explain, in some degree, the cause of so many captains and subalterns being absent from their companies, and show that a portion of the officers so separated were on important military duty as staff officers, or acting staff officers, or acting field officers, on service with troops in the field. But I deem it proper respectfully to remark on this occasion, that many officers were absent and employed upon service which had but little relation to the army. Official reports from commanders in the field, and on various occasions, show the great deficiency in the complement of company officers for service in the field during the military operations of the last year; and as illustrative of the actual wants of the service, I make the following extract from the official report of brevet Lieutenant Colonel Pierce, dated "Fort Heileman, Gary's ferry, September 13, 1836," to wit:

"I cannot permit the express to depart without stating to you the miserable, deplorable situation of the regular troops in the Territory, as regards their efficient action in the field. There are here 11 companies of artillery, the whole presents a fighting force of 110 men; and when we are entitled to 55 officers, we have here only *six* for company duty." The colonel of the 1st regiment of artillery reports, on the 2d of February, 1837, that "there are only 7 company officers present for duty with the *nine* companies, (of the regiment,) and that not one of the officers attached to companies C, D, and I, are *present* with any of those companies: Hence the delay and difficulty in procuring the requisite reports and returns," &c. These companies are now serving in the campaign against the Seminole Indians.

These and other official reports from commanding officers, which might be cited, relative to the state of the service in the field, are now respectfully referred to, with no other view than in the hope that the competent authority may, at the proper time, direct such measures to be taken as will effectually prevent a recurrence of the inconvenience so injuriously felt in the army, relative to the want of officers for *duty with their companies*, and which have been so frequently mentioned by commanders in the field and elsewhere.

Respectfully submitted.

R. JONES, *Adjutant General.*

Hon. B. F. BUTLER,
Secretary of War ad interim.

Remarks.—In the first three months of the year, (1836,) there were 9 field officers serving with the troops in Florida, in April, May, and June, 7; in July, August, and September, 3; in October, November, and December, 7.

It will be seen that, in June, there were serving with the 26 companies (several of which were much reduced in strength) 9 captains, 7 first lieutenants, and 17 second lieutenants, making 33 officers. The residue, to wit: 17 captains, 37 first lieutenants, 27 second lieutenants—in all, 81 company officers—(deducting several vacancies,) were absent from their respective companies; a part of whom were variously employed on the staff, in Florida; but the greater number were absent on ordnance, engineer, and topographical duty, Indian service, &c.; and several of the number absent were on leave, being sick, &c.

REMARKS.

In June, there were 3 field officers serving with the troops in the Creek nation. Of the 13 captains reported to be serving with the 16 companies, 5 were on higher duty as commanders of battalions, acting as inspectors, or performing other important duties as field officers with the troops in the field. The actual number of company officers, acting as such with the 16 companies, were 8 captains, 5 first lieutenants, and 9 second lieutenants, in all 22—leaving, after deducting 2 vacancies, 50 who were not on duty with their respective companies. The last remark, respecting absent company officers, in statement No. 1, is applicable, also, in some degree, to the state of the service in the Creek country. Vide remarks of statement No. 1 of table B.
