H.R. Exec. Doc. No. 199, 40th Cong., 2nd Sess. (1868)
LETTHER
FROM
THE SECRETARY OF THE INTERIOR,
RELATIVE TO
An appropriation to carry out treaty stipulations with the Sissiton and Wahpeton bands of Dakota Indians.

MARCH 4, 1868.—Referred to the Committee on Appropriations and ordered to be printed.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., March 4, 1868.

Sir: By the sixth article, Senate amendment, of the treaty with the Sissiton and Wahpeton bands of Dakota or Sioux Indians, concluded February 19, 1867, (pamphlet laws, first session fortieth Congress,) "it is agreed that Congress will, at its own discretion, from time to time make such appropriations as may be deemed requisite to enable said Indians to return to an agricultural life, under the system in operation on the Sioux reservation in 1862."

I have the honor to transmit herewith a copy of a communication of the 28th ultimo from the Commissioner of Indian Affairs, and accompanying papers, representing the necessity for an appropriation to carry into effect the stipulations of the treaty referred to.

The attention of Congress is respectfully and earnestly invited to an early consideration of the subject.

Very respectfully, your obedient servant,

O. H. BROWNING, Secretary.

Hon. SCHUYLER COLFAX,
Speaker of the House of Representatives.

DEPARTMENT OF THE INTERIOR,
Office of Indian Affairs,
Washington, D. C., February 28, 1868.

Sir: Referring to office report of the 22d of May last, relative to purchasing agricultural implements, stock, tools, seeds, &c., to enable the Sissiton and Wahpeton bands of Sioux to commence farming operations last summer, and also to the purchase of subsistence until they could raise a crop, I have the honor to state that under instructions from this office, issued in accordance with directions from your department, dated the 25th of May, 1867, Agent Thompson contracted with certain parties (copies of contracts herewith) for
the required and necessary articles, amounting in the aggregate to $7,457 25, the same to be paid when an appropriation was made applicable.

The reasons why the purchases were made upon the terms stated in said contracts are fully set forth in said office report, and the funds to pay for the articles so furnished should be placed at the disposal of your department at the earliest day practicable.

By the sixth article, Senate amendment, treaty of February 19, 1867, (pamphlet copy of Laws, first session, fortieth Congress, page 5 of treaties,) with said bands, "it is agreed, that Congress will, at its own discretion, from time to time, make such appropriations as may be deemed requisite to enable said Indians to return to an agricultural life, under the system in operation on the Sioux reservation in 1862," &c. No stipulated sum is designated in the treaty for the purpose, the entire matter being left to the discretion of Congress.

In view of this peculiar provision of the treaty, I do not see as it is necessary to estimate for any particular sum to be used for the benefit of said Indians, but simply to invite the attention of Congress to the matter, and to state the action already had in starting these two bands in farming operations. I enclose, however, for proper consideration, a copy of a letter from Agent Thompson, dated the 24th of September, 1867, submitting an estimate of funds by him deemed necessary to carry out the spirit and intention of said treaty, amounting to $132,340.

The funds considered necessary by Congress to enable these Indians to return to an agricultural life, and intended to be expended during the coming spring and summer, as well as to pay for the articles furnished under said contracts, should be placed at the disposal of your department at the earliest day practicable. I, therefore, respectfully suggest that the attention of Congress be invited to the matter, with the request that early action be had in the premises, in order that the indebtedness already incurred may be liquidated without delay, and the necessary steps be taken to furnish the articles required by said Indians, in time to enable them to commence farming operations early in the spring.

Very respectfully, your obedient servant,

N. G. TAYLOR, Commissioner.

Hon. O. H. BROWNING,
Secretary of the Interior.

DEPARTMENT OF THE INTERIOR, OFFICE OF INDIAN AFFAIRS,
Washington, D. C., May 22, 1867.

SIR: By the terms of the treaty of February 19, 1867, with the Sissiton and Wahpeton bands of Sioux, as amended by the Senate, it is agreed on the part of the United States, in consideration of the destitution of said bands, resulting from the confiscation of their annuities and improvements, that Congress will, in its own discretion, from time to time make such appropriations as may be deemed requisite to enable said Indians to return to an agricultural life under the system in operation on the Sioux reservation in 1862, &c.

The treaty, with the amendments thereto, not having been ratified until after the adjournment of Congress, no appropriation has been made to carry out any of its provisions or objects; but, as it is intended by the treaty that the Indians shall rely solely upon their agricultural and mechanical labor for subsistence, some steps should be taken at once to furnish them with the necessary farming implements, tools, &c., to enable them to commence operations on their new reservations this spring. They have nothing themselves with which to commence, except probably a few ponies, and if it is intended that they shall do anything toward subsisting themselves the present year, it will be necessary to render
them some assistance in the way of cattle to break land, farming implements, tools, seeds, &c.

In a recent conversation with Senator Henderson, in regard to this matter, he advised the purchase of the necessary implements, stock, seeds, &c., to enable these Indians to commence operations this spring, the same to be paid for when Congress makes the necessary appropriations, he having no doubt but that funds would be appropriated for that purpose at the next session of Congress. I think most, if not all, of the articles required, could be purchased on these terms, and such as could not be obtained in that way can be paid for, at least to a limited amount, from the "proceeds of the Sioux reservations in Minnesota and Dakota," which, in my opinion, by a liberal construction of the act of March 3, 1863, (see Statutes at Large, vol. 12, pp. 819–20,) is applicable to this object to a certain extent.

A sufficient quantity of goods, for the present, has already been purchased for them; also, some oxen, which were intended for beef, and a few yokes and chains. There are still on hand about seventy oxen, which can probably be used for breaking land, &c., and, with a few farming implements and tools, operations could be commenced at once, by which they would be able to raise a considerable quantity of produce the present year.

I enclose a list of articles which, I think, will be necessary for them to commence and carry on farming the present year; and, if you coincide with my views, that something should be done to start these Indians at once, and assist them to become, in a measure, self-sustaining, I would respectfully suggest that I be authorized to have the articles designated in said list, or such other articles as you may deem better suited to the objects intended, purchased without delay, with the understanding that the same, or a part of them, are to be paid for when Congress makes the necessary appropriation therefor.

Very respectfully, your obedient servant,

N. G. TAYLOR,
Commissioner.

Hon. O. H. BROWNING,
Secretary of the Interior.

DEPARTMENT OF THE INTERIOR,

SIR: I acknowledge the receipt of your letter of the 23d instant, recommending that certain implements, seeds, &c., as enumerated in the list sent up in said letter, be purchased to enable the Sisseton and Wahpeton bands of Sioux Indians to “commence and carry on farming the present year,” the amount of the cost of said purchase to be paid for when Congress shall make the appropriation therefor.

Your recommendation is hereby approved.

Very respectfully, your obedient servant,

W. T. OTTO,
Acting Secretary.

Hon. N. G. TAYLOR,
Commissioner of Indian Affairs.

SAINT PAUL, September 24, 1867.

SIR: I enclose herewith an estimate, as directed by telegraph despatch to me of the 17th instant, from your department, for the Sisseton and Wahpeton bands of Sioux Indians under their treaty, for the year of 1868, except what may be necessary for the survey of the Lake Traverse reservation, which should be done.

The estimate, therefore, I am not able to make, for the reason that I have not been able to obtain a map of Dakota Territory designating the lakes by name, and other points on the boundary lines. I have made inquiry of the surveyor general of Minnesota as to the cost of the work, and he informs me the outside lines would probably be done for about fifteen dollars per mile; the township lines would cost ten dollars, and the subdivisions eight dollars per mile or thereabout.

Very respectfully, your obedient servant,

BENJ. THOMPSON,
United States Indian Agent.

Hon. N. G. TAYLOR,
Commissioner of Indian Affairs, Washington, D. C.
