Stationery for the War Department (Record and Pension Division), being for the fiscal year ending June 30, 1891	July 11, 1890 Aug. 29, 1890	26 26	253 370	1 } 1 }	-----	\$10,500.00	\$31,500.00
<p>NOTE.—The large force engaged upon the work of reproducing and preserving the records of the volunteer army by the index record-card system necessitates the use of large quantities of record-card paper, manilla envelopes, and tracing linen, all of which must be of the most durable quality and are expensive. The rapid progress made in this work has already nearly exhausted the stationery fund allotted to the Record and Pension Division, and the additional amount asked for is absolutely necessary in order that the force may be fully employed and the work go on without interruption until the end of the fiscal year.</p>							
BUILDINGS AND GROUNDS IN AND AROUND WASHINGTON.							
<i>Lighting, etc., Executive Mansion, etc.—</i>							
For introducing electric lamps and wires into the Executive Mansion and connecting the same by underground cable with the source of electricity	Aug. 30, 1890	26	397	1	-----	5,750.00	7,700.00
<p>NOTE.—The act approved August 30, 1890, making appropriations for sundry civil expenses of the Government, contained an item "for introducing electric lamps and wires into the Executive Mansion, and connecting the same by underground cable with the source of electricity, \$7,700." This amount was fixed upon without any previous careful study of the necessities of the case, and has proved to be insufficient. It has been necessary to limit the work to some of the more important apartments of the first floor of the mansion. To complete the introduction of the new light to all parts of the building, it is estimated that a further appropriation of \$5,750 will be required.—O. H. ERNST, Colonel, U. S. A., Major, Corps of Engineers.</p>

<p>NOTE.—Artificial limbs are furnished for periods of five years, the greater part being furnished during the first year of each period. The present is such initial year. The amount appropriated (Stat., 26, 402) was \$400,000, which will be nearly exhausted by the end of the calendar year 1890.</p> <p>The appropriations for the last corresponding year, 1886, were \$400,000 (Stat. 23, 507) and \$175,000 (Stat. 24-5); but, after careful computation, it is thought that \$125,000 will be sufficient for the remainder of the present fiscal year.—CHAS. For medical attendance, medicines, and expenses of interments					175.00														
<p>NOTE.—Under the act of Congress, approved October 1, 1890, being "An act to increase the efficiency and reduce the expenses of the Signal Corps of the Army, and to transfer the Weather Service to the Department of Agriculture," a commissioned force of the Signal Corps was organized, to consist, in addition to the Chief Signal Officer, of one major, four captains (mounted), and four first lieutenants (mounted). No appropriation, however, was made in said act for the pay and allowance of said officers, and the Second Comptroller of the Treasury, to whom the question was referred, has decided that the appropriation "Signal Service pay, etc." for the current fiscal year is not applicable for such purpose, and as the appropriation for the support of the Army, under existing law, is not available for such payment during the present fiscal year, it has been necessary to submit the above estimate to provide for the pay and allowance of those officers from the date they may be commissioned.—A. W. GREELY, Chief Signal Officer.</p>

<i>Observation and Report of Storms—</i>																			
For the expenses of the removal of offices and the reërection of instruments	Oct. 1, 1890	26	653	2	900.00														
<p>NOTE.—This estimate is rendered necessary by the act of Congress approved October 1, 1890, which provides for the separation of military telegraph and meteorological stations (at places where the offices, now combined, are located in Army buildings), and the sum asked is to provide for the removal of the weather offices and the reërection of meteorological instruments elsewhere on or before June 30, 1891, as contemplated by said act.—A. For maps and bulletins	Aug. 30, 1890	26	398	1	810.00	1,710.00	\$246,454.32												
<p>NOTE.—As representing the public demand for the issue of maps, the edition has been increased from 178,248 in 1886-'87 to 1,069,534 in 1889-'90 and is being increased daily. The estimate for an appropriation under this item for the fiscal year ending June 30, 1891, was based upon the actual number of maps then being issued. It has since been found that the sum appropriated will be inadequate to supply the number demanded by the public, and that 200,000 additional maps will be required to last until June 30, 1891, which will cost, under present contract, \$810.—A. <i>Transportation and recruiting, Marine Corps—Continued.</i>							
For transportation of troops, Marine Corps, for balance of fiscal year ending June 30, 1891	June 30, 1890	26	204	1	\$2,000.00	\$12,000.00
<p><small>NOTE.—Congress appropriated, for the fiscal year 1890-'91, under head of "Transportation and recruiting," the sum of \$12,000, of which there remains unexpended the sum of about \$5,000. Two guards of about sixty men will soon require transportation to join ships fitting out at the navy yard, Mare Island, Cal. This will require an expenditure of about \$2,500; leaving a balance to meet expenses under the head of "Transportation and recruiting" of only \$2,500. This is not sufficient to last until June 30, 1891. I have therefore included \$2,000 in the proposed deficiency estimate, which is herewith forwarded.—H. B. LOWRY, Major and Quartermaster, U. S. M. PUBLIC LANDS SERVICE.							
<i>Salaries, Office of the Surveyor-General of Montana—</i> For clerks in the office of the surveyor-general of Montana, for the service of the fiscal year 1891	{ July 11, 1890	{ R. S. 26	{ 391 262	{ 2226 1	-----	\$3,500.00	\$7,000.00
NOTE.—This deficiency estimate for clerk hire is submitted as necessary, owing to the return of surveys under thirteen surveying contracts aggregating \$32,360, involving the preparation of a large number of original town plats for surveyor-general's office, duplicate plats and transcripts of field notes for the General Land Office, and triplicate plats for the local land offices; also for the preparation of contracts to be awarded under unusually large apportionment, \$75,000, for surveys in Montana, out of the appropriation for surveying the public lands during the fiscal year, together with the necessary special instructions and diagrams to accompany each contract; the appropriation per act of July 11, 1890, for clerk hire in Montana during the current fiscal year is inadequate to the service. (See also Appendix F.)							
<i>Salaries, Office of Surveyor-General of Nebraska and Iowa—</i> To pay the account of J. F. Gardner, late United States surveyor-general of Nebraska and Iowa, for services as such, from August 1, 1886, to October 15, 1886, inclusive.	Submitted				-----	408.86	
NOTE.—See Appendix G.							
<i>Salaries and Commissions of Registers and Receivers—</i> Compensation of registers and receivers of local land offices, at not exceeding \$3,000 each, being a deficiency for the fiscal year 1891	Aug. 30, 1890	R. S. 26	392 389	2,237 1	-----	62,967.80	550,000.00
NOTE.—The amount estimated above is absolutely necessary for the payment of registers and receivers for the fiscal year. The creation of new offices during the year, with no corresponding increase in the appropriations for the same, necessitates this deficiency.							
<i>Contingent Expenses of Land Offices—</i> Clerk hire, rent, and other incidental expenses of the several land offices, being a deficiency for the fiscal year 1891	Aug. 30, 1890	26	389	1	-----	25,000.00	175,000.00
NOTE.—The appropriation for the fiscal year ending June 30, 1891, was \$175,000, which was \$3,000 less than the appropriation for the previous year. No provision was made by Congress for the increased expenses in connection with the new land offices. The amount appropriated will be wholly inadequate to meet the expenses of the land offices to the end of the year, and this Office is now compelled to make reductions in the clerical force of the various offices and to daily refuse clerks and other necessary expenses to offices whose business absolutely requires the same.							
<i>Protecting the Public Lands—</i> The protection of public lands from illegal and fraudulent entry or appropriation, being a deficiency for the fiscal year 1891	Aug. 30, 1890	26	389	1	-----	20,000.00	120,000.00
NOTE.—Experience with the appropriation during the past five months demonstrates the necessity of the additional amount asked for, and unless this is granted there will have to be such a reduction in the force that the service will be greatly impaired.							
<i>Preservation of Abandoned Military Reservations—</i> To pay balance of salary of E. R. Ruggles, custodian of the Fort Sisseton abandoned military reservation in South Dakota, for May, 1890, as found due by the accounting officers	Mar. 2, 1889	25	959	1	-----	14.99	2 000.00
NOTE.—Mr. Ruggles was employed at a salary of \$60 per month, but when his account was presented for payment it was found that but \$45.01 of the appropriation for 1890 remained unexpended.

APPENDIX A.

In relation to the estimates for "Loss by Exchange, Diplomatic and Consular Services, 1891." (See page 4).

DEPARTMENT OF STATE.

Washington, January 8, 1891.

SIR: I have the honor to state that owing to the fluctuations in the value of foreign silver coins during the past six months it has involved a heavy loss in exchange, as shown by the accounts and drafts already received for the first three months of the current fiscal year, especially from the diplomatic and consular officers in China Japan, Corea, and Mexico. The payment of these drafts having almost exhausted the appropriations for loss by exchange in the diplomatic and consular service, I have to request, in order to meet anticipated deficiency in the said appropriations for the next three quarters of the year ending June 30, 1891, that the sum of \$6,000 for loss by exchange in the Diplomatic Service, and \$3,000 for the same purpose in the Consular Service, be asked for in your statement of deficiencies about to be transmitted to Congress.

I have the honor to be, sir, your obedient servant,

JAMES G. BLAINE.

Hon. WM. WINDOM,
Secretary of the Treasury.

APPENDIX C.

In relation to the estimate for the National Home for Disabled Volunteer Soldiers. (See page 14.)

HARTFORD, CONN., December 15, 1890.

SIR: Congress by the act "for sundry civil expenses," etc., approved March 2, 1889, appropriated "for continuing the aid to State or Territorial homes for the support of disabled volunteer soldiers, in conformity with the act approved August 27, 1888, in addition to the unexpended balance of the appropriation made by said act" [there was no unexpended balance] "\$300,000: *Provided, That hereafter no State under this appropriation shall be paid a sum exceeding one-half the cost of maintenance of each soldier or sailor by such State.*"

The Board of Managers National Home Disabled Volunteer Soldiers has, under the act of August 27, 1888, and the above act, ascertained the number of members of the various State homes for whom the States are entitled to payments under the acts, and one-half the cost of maintenance of each soldier or sailor, and has paid to the proper officers of the States the proper amounts under the appropriation, so far as it went.

The cost of carrying out the law was for the year \$3,118.04, leaving \$296,881.96 to be paid to the States. This amount has been paid to them.

But, under the law, the States were entitled to \$378,704.38 for the year, if half the cost of maintenance were to be paid, and there is, therefore, due them the sum of \$81,822.42, which is a legitimate deficiency under the act.

I therefore respectfully request that this statement be sent to the Secretary of the Treasury for transmittal to Congress, with the request that that sum be appropriated as a deficiency for the fiscal year ending June 30, 1890.

Herewith are extracts from the Appendix of the Report of the Board of Managers for the fiscal year ending June 30, 1890, showing the details of the expenditures, from which may be ascertained the amounts remaining due to each state, under the act, and other details showing payments made to each State in each quarter.

Respectfully, yours,

W. B. FRANKLIN,

President Board of Managers National Home for Disabled Volunteer Soldiers.

Hon. REDFIELD PROCTOR,
Secretary of War, Washington, D. C.

APPENDIX D.

In relation to the estimates for Official Gazette and photolithographing for the Patent Office. (See page 16.)

DEPARTMENT OF THE INTERIOR.

Washington, December 4, 1890.

SIR: I have the honor to transmit herewith, with my approval and for the favorable consideration of Congress, an estimate of \$47,000 submitted by the Commissioner of Patents to meet deficiencies in appropriations for his office for the current fiscal year.

Very respectfully,

JOHN W. NOBLE,
Secretary.

The SECRETARY OF THE TREASURY.

DEPARTMENT OF THE INTERIOR,
UNITED STATES PATENT OFFICE,
Washington, D. C., December 2, 1890.

SIR: I have the honor to advise you that the appropriations made by Congress for the current fiscal year for photolithographing or otherwise producing plates for the Official Gazette and for photolithographing or otherwise producing copies of drawings, etc. will be insufficient to meet the requirements of the office.

Taking as a basis the amount expended for the first five months of this fiscal year, I find that an additional appropriation of \$22,000 for the Official Gazette and \$25,000 for photolithographing and reproducing drawings will be necessary to continue the photolithographic work during the remainder of this fiscal year. The number of

patents issued by this office is constantly increasing, and this necessarily increases the number of pages in the Official Gazette. The annual appropriations made for the current year are the same that have been made for several years past, viz :

For photolithographing plates for the Official Gazette.....	\$44,000
For photolithographing copies of drawings, etc	90,000

During the last fiscal year, however, Congress supplemented the foregoing by making an additional appropriation of \$15,000 under each head, so that the total amount appropriated was \$164,000.

The estimates submitted herewith for additional appropriations for the current fiscal year are slightly greater than those for the last fiscal year, which is due entirely to the annually increasing number of patents granted by the office. As one evidence of the increase there may be cited the number of sheets of drawings accompanying the letters patent granted during the first five months of this fiscal year, which is nearly 10 per cent. greater than for the corresponding period of last year. The same percentage of increase occurs also in the pages of the Official Gazette, and as the estimates for photolithographic work are predicated upon the number of sheets of drawings and the number of illustrated pages in the Official Gazette, it is apparent that the appropriation needed for this work for the current fiscal year must necessarily exceed that for the past year in the same ratio, viz, about 10 per cent., and my estimates have been made accordingly.

I have, therefore, the honor to transmit herewith a deficiency estimate of \$22,000 for the Official Gazette and \$25,000 for the photolithographing of drawings for the current fiscal year and to recommend that the same be submitted to Congress for its early consideration.

In this connection I may properly refer to the fact that there are fifty-three issue days in this fiscal year, thereby rendering necessary an increase of expenditure of between \$3,000 and \$4,000, and I should add that the prices paid for the photolithographic work are the same as have been paid for the past few years, except in the case of the Official Gazette, seven thousand copies of which are now furnished at the same cost as six thousand five hundred copies were previously supplied.

Very respectfully,

C. E. MITCHELL,
Commissioner.

THE SECRETARY OF THE INTERIOR.

APPENDIX E.

In relation to the estimate for "Education of feeble-minded children of the District of Columbia." (See page 16.)

THE COLUMBIA INSTITUTION FOR THE DEAF AND DUMB,
WASHINGTON, D. C., *December 11, 1890.*

SIR: Referring to a letter from Hon. Geo. Chandler, Acting Secretary, to Dr. Isaac N. Kerlin, of Elwyn, Pa., under date of October 18, 1890, a copy of which has been placed in my hands by Dr. Kerlin, I beg to say that the bill for \$2,475.60 of the Pennsylvania Institution for Feeble minded Children against the Department of the Interior ought, in my opinion, to be paid.

The facts bearing on the case may be briefly stated as follows:

In 1886 several indigent children of feeble mind, bona fide residents of the District of Columbia, were brought to me by their parents, and their admission to the school at Elwyn asked for under the then existing law of Congress providing for the care and training of such children at the expense of the United States.

The amount appropriated by Congress for the care of the feeble-minded was insufficient to cover all these cases.

The condition of the children was so deplorable and their need for proper care and training so great that the authorities of the Pennsylvania Institution out of pure benevolence, offered to receive the children and care for them, trusting to Congress to reimburse the expense incurred when the facts should be duly set forth.

These children are now all regularly enrolled as beneficiaries of the United States and their care in the future provided for, and the occasion for a deficiency appropriation is not likely to recur.

I therefore respectfully recommend that Congress be asked to provide by a proper appropriation for the settlement of the bill above referred to.

Very respectfully, your obedient servant,

E. M. GALLAUDET,
President.

Hon. JOHN W. NOBLE,
Secretary of the Interior.

[Pennsylvania Institution for Feeble-minded Children, Isaac N. Kerlin, M. D., superintendent.]

ELWYN, DELAWARE COUNTY, PA., *July 15, 1890.*

DEAR SIR: Inclosed herewith please find duplicate bills for maintenance of children on the beneficiary fund of the United States.

Also a bill for maintenance of children irregularly admitted through Dr. Gallaudet.

If found correct please send warrant to our treasurer, Joseph K. Wheeler, 2026 Chestnut street, Philadelphia, Pa.

Yours, truly,

ISAAC N. KERLIN,

Hon. JOHN W. NOBLE,
Secretary of the Interior.

ELWYN, PA., July 15, 1890.

The United States to Pennsylvania Training School for Feeble Minded Children, Dr.

For service rendered to children irregularly admitted, but retained rather than give distress by dismissal, as follows:

Bertha Cross, from December 9, 1886, to August 1, 1887.....	\$218.90
Gilbert Staton, from December 9, 1886, to July 30, 1888.....	493.90
Henry Hutchinson, from December 9, 1886, to March 30, 1889.....	693.90
William Weaver, from December 9, 1886, to July 1, 1890.....	1,068.90

This account was presented a year ago at request of President Gallaudet, to secure appropriations towards its payment.

I. N. KERLIN,

APPENDIX F.

*In relation to the estimate for "Salaries, office of surveyor-general of Montana." (See page 17.)*DEPARTMENT OF THE INTERIOR,
Washington, January 8, 1891.

SIR: I have the honor to transmit herewith an estimate of \$3,500, being amount required to meet a deficiency in appropriation for clerk hire in the office of the United States surveyor-general of Montana for the current fiscal year, and ask the favorable consideration of Congress thereon.

Very respectfully,

JOHN W. NOBLE,
Secretary.

The SECRETARY OF THE TREASURY.

DEPARTMENT OF THE INTERIOR, GENERAL LAND OFFICE.
Washington, D. C., January 6, 1891.

SIR: I have the honor to submit herewith an estimate, in duplicate, of an additional appropriation for clerk hire in the office of the United States surveyor-general of Montana for the current fiscal year:

This additional appropriation is asked for by the surveyor-general in consequence of the inadequacy of the present clerical force to properly perform the office work upon the surveys executed under thirteen surveying contracts, the returns of which surveys have been filed in the surveyor-general's office, or will shortly be returned, and in view of the large apportionment for surveys this year, which entails much additional work upon his office.

I inclose herewith a copy of the surveyor-general's letter, bearing date November 20, 1890, containing a statement relative to the office work in the agricultural division of his office, and setting forth fully the necessity for the additional appropriation.

The aggregate liability of the thirteen contracts named in the surveyor-general's letter, the office work upon which must be performed by the regular clerical force, is \$32,360, and unless additional funds are provided, the work can not be promptly and properly performed, and the deputy surveyors, usually men of small means, who are compelled to borrow money at heavy interest rates to enable them to carry out their contracts, will be obliged to wait many months for their compensation, and the small margin of profit left to them after the proper execution of their surveys will be greatly reduced, if not entirely absorbed, by the interest upon borrowed money. Under such a state of affairs the best and most experienced surveyors become discouraged and seek other employment.

The next most important item of work to be performed by the regular force, is the drawing up of surveying contracts, and the preparation of special and minute instructions for the surveys under each contract, and diagrams accompanying the same. Each contract is required to be made out in quadruplicate. The apportionment for surveys in Montana for the current fiscal year is \$75,000, the largest ever made for surveys in this State, and all contracts thereunder must be prepared before the close of the fiscal year, the appropriation not being available for contracts thereafter.

The estimate submitted by this office for clerks in the office of the surveyor-general of Montana for the fiscal year ending June 30, 1891, was \$12,000. Congress at the recent session appropriated but \$7,000 for the purpose.

The deputy surveyor who executes surveys in accordance with the terms of his contract and instructions, is entitled to the prompt adjustment of his account and payment for the work, and in order that this may be done, I most urgently recommend that the additional appropriation of \$3,500 asked for by the surveyor-general may be made at an early day.

Very respectfully,

LEWIS A. GROFF,
Commissioner.

The SECRETARY OF THE INTERIOR.

DEPARTMENT OF THE INTERIOR,
OFFICE OF UNITED STATES SURVEYOR-GENERAL FOR THE DISTRICT OF MONTANA,
Helena, Mont., November 20, 1890.

SIR: I have the honor to lay before you the following statement relative to the office work in the agricultural division of this office.

The amount appropriated by Congress for paying the clerical force of this office for the fiscal year ending June 30, 1891, is \$7,000. This has enabled me to employ one chief clerk, one chief draughtsman, two draughtsmen, and

one transcribing clerk. The chief clerk's duties being executive, and those of general superintendence, he can not devote any time to the examination of surveys. The chief draughtsman's time is constantly employed with duties generally relative to the surveys, superintendence of the work of examining and platting the surveys, correspondence with surveyors and others on professional points, making out contracts and instructions, etc., which prevent his being able to devote any continuous time to examinations. The work, therefore, falls on the two draughtsmen, of whom one examines the surveys and makes the original plat, and the other makes copies of the same and descriptive sheets as well as other routine work. There is besides a great deal of miscellaneous work to occupy their time and take them from the surveys proper.

This force is inadequate to properly perform the work which it has on hand, as will be seen by the following list of contracts which have all been executed in the field, and the notes of which are either in the office or will be within three weeks, and requiring to be examined and platted in their regular order.

Contract.	Name.	Remarks.
224	Ernest Rakowicz	5 mostly fractional townships, with exteriors and standard lines.
225	Charles W. Mead	11 townships, with guide meridian. (NOTE.—These two were let by my predecessor nearly two years ago.)
229	Herbert P. Rolfe	8 townships with exteriors, standard lines, guide meridians, etc.
232	Geo. T. Lamport	2 townships, with exterior boundaries.
233	Paul S. A. Bickel	5 townships, with exterior boundaries.
234	Rodney W. Page and Newton Orr.	22 townships, with their exterior boundaries, standard parallel 180 miles long, and several guide meridians.
235	Paul S. A. Bickel	1 fractional township.
236	Geo. T. Lamport	17 townships, with exteriors and guide meridians.
237	Geo. Scheetz	25 townships, with exteriors and guide meridian.
238	Samuel Bundoock	20 townships, with exteriors, guide meridians, etc. (NOTE.—Contract No. 238 is on the Crow Indian Reservation, and is for the purpose of making allotments in severalty to the Indians. It is to be examined and platted in this office, but the clerical work is to be paid for by the Indian Department.)
239	Victor E. Tull	1 fractional township.
240	Gustave A. Kornburg	1 fractional township and exteriors.
241	Paul S. A. Bickel and Galen H. Wheeler.	5 townships, with exterior boundaries and guide meridian.
242	Angus McGillivray	2½ townships, with exteriors and standard parallel, instructions to United States Deputy James M. Robertson, lines in fractional township.

All of these surveys have been executed in the field. In most cases augmented rates were allowed, and some were surveyed under the requirements of the old manual of 1881, whilst others were executed under those of the new manual of 1890.

It is found by experience in this office that many of the notes and sometimes the surveys are incorrect and have to be returned for amendment. The allowance of augmented rates requires that the topography shall be described with precision in order to justify them. The requirements of the manual, when fully observed (as they should be), are very exacting, and all these together make the task of examining, platting, and calculating the areas of a contract (particularly if there are meanders on both sides of a stream, as often happens) a very tedious and onerous one, much more so than formerly. Besides this, all field notes of examinations in the field by examiners appointed by this office have to be examined here before being forwarded to the Department. In addition, the contracts must be drawn for \$75,000 worth of work under the appropriation for this State for the fiscal year ending June 30, 1891, with special and minute instructions for the surveys of each one, and at least four diagrams. There is also a certain amount of miscellaneous work, which takes much time, but can not well be specified.

There are in the above list of contracts, about 127 field books of *subdivisions only* of townships to be examined, and if there is added one-third more for books of field notes of Standards, Guide Meridians, and exteriors of townships, it will give, in round numbers, 170 books of field notes for the office force to work up. Every township requires three plats and a transcript, and two descriptive sheets for the local land office. Every sheet of exteriors or standard lines requires two plats and a transcript. From the above number of townships, standards, etc., there would be required not less than about 417 plats, and about 145 transcripts.

It will readily be seen that this is an enormous amount of work for the force in the Agricultural Department, constituted as described at the commencement of this letter, and it would be impossible for them to execute it in one year from date, and if it continues so limited, it will throw forward the examination and platting of the contracts of this fiscal year to an indefinite period.

I am well aware that the Department can do nothing in this matter, as the sum allowed for clerk hire is fixed by Congress, and can not be exceeded. I nevertheless give these details in order to show the backward condition of the work, owing to the want of sufficient clerical help, and to urge that Congress be petitioned, at the present session now about to commence, to pass an urgent deficiency bill for an additional sum (say \$3,500, to be made available at once), so as to clear off the present work in the office during the present fiscal year, and be prepared for the prompt disposal of the surveying returns of next year, which will be so much greater.

I would here remark, that in making appropriations for clerk hire Congress always seems to have acted on the theory that it has to be expended upon the field work of the fiscal year for which they are making the appropriation. In point of fact, however, the money for clerk hire is really expended in great part on the field work of the year before, and sometimes even of two years before, as in the present instance in this office. Another inconsistency is, that the clerk hire is rarely, if ever, proportioned to the work to be done; the same, or nearly the same amount being appropriated from year to year, without regard to the amount appropriated for surveys. Hence delays are unavoidable, and the best and most experienced surveyors become discouraged and seek other employment.

With regard to the appropriation for the present fiscal year, which is the largest (\$75,000) ever made for surveys in this State, all the experience of this office for years past shows that to do the office work for such an amount, rapidly and efficiently, an appropriation of at least \$14,000 for clerical help would be required for the *ensuing* fiscal year.

All of which is respectfully submitted.

Very respectfully,

GEO. O. EATON,
Surveyor-General for Montana.

The COMMISSIONER OF THE GENERAL LAND OFFICE,
Washington, D. C.

APPENDIX G.

In relation to the estimate for "Salaries, Office of Surveyor-General of Nebraska and Iowa." (See page 17.)

DEPARTMENT OF THE INTERIOR, GENERAL LAND OFFICE,
Washington, D. C., October 23, 1890.

SIR: I transmit herewith, inclosed with my certificate of approval, an account in favor of J. F. Gardner, late U. S. surveyor-general of Nebraska and Iowa, for services during the months of August, September, and from October 1 to 15, inclusive, at the rate of \$2,000 per annum, the aggregate salary amounting to \$412.95, from which is deducted \$4.09 balance due the United States after paying salaries of his office for the month of July, 1886, as per register's certificate herewith, leaving amount of Mr. Gardner's claim, \$403.86.

Congress having refused to make any further appropriation for expenses of the office of surveyor-general of Nebraska and Iowa, for the fiscal year ending June 30, 1887, the abolishing of the office followed, and the papers and records of said office were, by order of the honorable Secretary of the Interior, prepared for shipment to the office of the register and receiver at Lincoln, Nebr.

In this work Mr. Gardner appears to have been engaged in his official capacity as surveyor-general during the time charged in the account, ending October 15, 1886, when he took a receipt for the contents of his office and his functions ceased.

In view of all the circumstances attending this case, which appear to be correctly set forth by Mr. Gardner in his sworn statement, supplemental to his account, and his claim seeming just and reasonable, I respectfully submit the same for your action, with my favorable recommendation that the claim may be transmitted to the honorable Secretary of the Treasury for Congressional action looking to the relief of J. F. Gardner, late United States surveyor-general of Nebraska and Iowa.

Very respectfully,

WM. STONE,
Acting Commissioner.

The SECRETARY OF THE INTERIOR.

[Indorsement.]

DEPARTMENT OF THE INTERIOR, *October 28, 1890.*

Respectfully referred to the honorable Secretary of the Treasury with my approval for the favorable consideration of Congress.

GEO. CHANDLER,
Acting Secretary.

APPENDIX H.

In relation to certain estimates for the Indian service. (See pages 17 and 18.)

DEPARTMENT OF THE INTERIOR,
Washington, December 13, 1890.

SIR: I have the honor to transmit, herewith, for the favorable action of Congress, estimates amounting to \$70,800, to meet deficiencies in appropriations for the Indian service for the fiscal year ending June 30, 1891, and for prior years.

Very respectfully,

GEO. CHANDLER,
Acting Secretary.

The SECRETARY OF THE TREASURY.

DEPARTMENT OF THE INTERIOR, OFFICE OF INDIAN AFFAIRS,
Washington, December 11, 1890.

SIR: I have the honor to submit herewith, in duplicate, estimates of appropriations required to meet deficiencies on account of the Indian service for the fiscal year ending June 30, 1891, and prior years, amounting to \$69,800.

The first item of \$3,000 is required for payment to the Choctaw Nation as a permanent annuity for support of light horsemen, as guaranteed by treaties of 1820 and 1855, at \$600 per annum, for the fiscal years 1887-'88-'89-'90-'91.

The last appropriation of \$600 was made in 1885 for the fiscal year 1886. The item was embraced in the estimates for 1887, but was not appropriated for that year, since which time the item has been left out of the estimates. The sum of \$600 is guaranteed by the treaties named as a permanent annuity and is an obligation that should be met by favorable action of Congress.

The other item of \$3,000 is needed to meet liabilities incurred by the War Department in feeding and caring for the Apache Indians in semi-confinement at Fort Union, N. Mex. The accounting officers of the Treasury have decided that the cost of subsistence and caring for said Indians is a proper charge against appropriations for the support of the Indian service, and as the appropriation for the Apaches of Arizona and New Mexico is entirely exhausted by liabilities already incurred, the sum named will be required for their support for the remainder of the current fiscal year.

The last item of \$63,800 is needed to increase the Indian police at several of the Indian reservations for the last four months of the current fiscal year, owing to the turbulent condition of many of the tribes in the Northwest.

Very respectfully,

T. J. MORGAN,
Commissioner.

The SECRETARY OF THE INTERIOR.

WASHINGTON, D. C., September 3, 1890.

SIR: I respectfully call your attention to the fact that Congress has failed to appropriate an item of \$600 as an annual appropriation for payment to the Choctaw Nation for support of light horsemen since March 3, 1885, the last appropriation being for the year ending June 30, 1886. This amount became due and payable to the Choctaw Nation under the thirteenth article of the treaty of October 18, 1820, the thirteenth article of the treaty of June 22, 1855, and fully renewed under the tenth and forty-fifth articles of the treaty of June 28, 1866. The United States can no more escape, evade, or renounce its obligation in this instance than it can any other agreement solemnly entered into, and repeatedly reaffirmed, without evincing an utter lack of good faith. This obligation is not bounded by limitation, and of course has not expired; the Choctaws have not consented to its cancellation, nor will they consent to it without a valuable and equitable consideration therefor; and of course the obligation is as binding upon the United States to pay that amount of money annually to the Choctaws now as it was when the money was regularly appropriated.

Five annual appropriations of that amount have not been made, amounting in all to \$3,000.

I ask that you include the last-named amount in your next estimate for appropriations, as also the regular item of \$600 to be covered in the annual appropriation for the year ending June 30, 1892.

I would further state that with the advancement of the Choctaws in civilization, new duties, more duties, and more delicate duties arise, which require a higher order of, and more intelligent standing for, efficient light horsemen, and in consequence the appropriation is not *less* necessary, but *more* necessary now than it ever was.

Very respectfully,

J. S. STANDLEY,
Choctaw Delegate.

Hon. T. J. MORGAN,
Commissioner of Indian Affairs.

Mr. SECRETARY: The balance of the appropriation for traveling expenses of Indian inspectors for the current fiscal year on the books of the Indian Office, is to-day \$3,384.26.

This amount is subject to claims of Pacific roads for transportation of inspectors, not yet presented, and Mr. Miller will require some \$500 to pay expenses of the Murphy investigation. This will leave probably \$2,500 for the five inspectors for the six months ending June 30, 1890.

I therefore respectfully recommend that your disbursing clerk be directed to add to the Indian deficiency estimate, now before the Department, the accompanying item, asking for an additional \$1,000 for the purpose named. Respectfully submitted.

N. E. CARPENTER,
Chief Indian Division.

Approved:

J. W. NOBLE,
Secretary.

DECEMBER 12, 1890.

APPENDIX I.

In relation to the estimate for "New edition of Postal Laws and Regulations." (See page 18.)

OFFICE OF THE POSTMASTER-GENERAL,
Washington, D. C., January 10, 1891.

SIR: I have the honor to transmit herewith estimates of the deficiencies required for the service of the Post-Office Department for the current fiscal year. The deficiency appropriation requested for the publication of a new edition of the Postal Laws and Regulations is absolutely necessary to the proper conduct of the postal business. The

last edition of the postal laws and regulations authorized in 1886, and published in 1887, was completely exhausted some months ago. The officers of the service, postmasters at newly established offices, etc., have not been furnished with this requisite book for the last few months. In addition to this fact, there have been numerous changes made in the last four years in the postal laws and regulations, which would render desirable, were there no other reason, a revision of this important and constantly used publication. The sum asked for is based upon an estimate from the Public Printer, which is herewith transmitted.

The estimated deficiency in the appropriation for railroad transportation is explained by a letter, herewith inclosed, from the Second Assistant Postmaster-General.

Very respectfully,

JNO. WANAMAKER,
Postmaster-General.

Hon. WILLIAM WINDOM,
Secretary of the Treasury.

NOTE.—This estimate for postal laws and regulations has been withheld until this time in order that amendments passed at this session of Congress might be incorporated in the revision.

OFFICE OF THE PUBLIC PRINTER,
Washington, D. C., January 9, 1891.

SIR: In compliance with the request contained in your favor of this date, I have to say that the estimated cost of printing and binding 85,000 copies of the Postal Laws and Regulations, 3,000 copies to be bound in cloth, and 82,000 copies in board covers, the whole edition to be wrapped for mailing, is \$40,365.

The sample copies accompanying your letter are returned herewith.

Very respectfully,

W. H. COLLINS,
Chief Clerk.

Mr. W. B. COOLEY,
Chief Clerk, Post-Office Department, City.

It is not believed that there will be any deficiency in any of the other appropriations for the use of this office.

Very respectfully,

J. LOWRIE BELL,
Second Assistant Postmaster-General.

1883	800.00		

The last item is a claim of I. S. Lyons, approved September 30, 1890, on page 526, first session, Fifty-first Congress, as part of the amount of \$2,138.55 in the next to the last paragraph of the page. It was approved for an appropriation for the fiscal year 1890. It should have been approved for the fiscal year 1889.

The First Comptroller of the Treasury could not change the fiscal year, and the account has remained unpaid. It is now presented anew under the proper fiscal year, 1889.

Very respectfully,

W. H. H. MILLER,
Attorney-General.

The SECRETARY OF THE TREASURY.

TREASURY DEPARTMENT, FIRST COMPTROLLER'S OFFICE,
Washington, D. C., January 7, 1890.

SIR: I have the honor to acknowledge receipt of your communication of the 29th ultimo, in which you request a statement of the regular deficiency estimates in time for transmission to Congress by the 10th instant. In reply thereto I have to say that I have this day transmitted to the honorable Secretary of the Treasury a report of "Balances remaining available of, amounts found due by the accounting officers and yet remaining unpaid under, and actual deficiencies in, the appropriations for expenses of United States courts for the fiscal years 1889 and

FIRST COMPTROLLER'S OFFICE, January 7, 1891.

TREASURY DEPARTMENT, FIRST COMPTROLLER'S OFFICE,
Washington, January 8, 1890.

SIR: Replying to the verbal request of your Mr. Hodges, that this office give an estimate of the probable amounts that will be needed to supply deficiencies in judicial appropriations for the fiscal year 1891, I have the honor to report that, so far as I am able to judge from all available sources of information at my command, the following amounts will be needed to supply deficiencies that may arise before the end of the current fiscal year:

Fees and expenses of marshals, United States courts.....	\$400,000
Fees of clerks, United States courts.....	70,000
Fees of district attorneys, United States courts.....	35,000
Fees of commissioners, United States courts.....	80,000
Fees of witnesses, United States courts.....	300,000
Pay of bailiffs, etc., United States courts.....	30,000
Miscellaneous expenses, United States courts.....	25,000
Expenses Territorial courts in Utah.....	18,000

These estimates are based on actual deficiencies heretofore reported to Congress for fiscal year 1890 (the original appropriation being about the same in amount as for 1890).

Very respectfully,

A. C. MATTHEWS,
Comptroller.

The ATTORNEY-GENERAL.
